TO WHOM IT MAY CONCERN

This is to certify that **SPIROS PROXENOS [CONSULTING 2000]** has been known to me since 1997 when I became principal of Dinwiddie Primary School. He has been our IT Consultant since that time. He supplies our school with all hardware (computers, notebooks, screens, cabling, projectors, and printers). He also sees to the upgrading of all computer supplies needed at this school. He is the computer specialist who sees to us when there is a computer problem e.g. problems with the server, viruses and he supports our administration / financial packages e.g. Edupac. On many occasions he has worked overtime/weekends to ensure that my administration office runs smoothly because I cannot function without all computers, servers in working order.

He played an essential role in the setting up of our Computer Centre/ Resource Centre. He supplied all technical specifications and supplied all hardware re cabling, software, computers, projects etc at a cost of R500 000 and has since then attended to all upgrading and/or additions when required.

Due to his professionalism and expertise the Governing Body has embarked on an ambitious project to make our school a total e-learning environment. We are totally wireless, and have gone totally interactive multi-media in our classrooms. Our classrooms have notebooks/projectors, interactive whiteboards/e-beam, and sound systems. At the end of this project a total of R930 00-00 would have been spent. All the hardware, software and installation has to date and will be done by Mr Proxenos. His workmanship cannot be faulted, he works to perfection, but what is most important is that he stays in touch with current market trends re multi-media teaching/internet access/e-learning.

From the many projects that Mr Proxenos is involved in at this school it can be seen that we highly rate his professionalism, work ethic and skills.

It is due to his positive attitude, his willingness to go that extra mile and above all his commitment to excellence that our association has continued for so many years.

I have no hesitation in recommending Mr Proxenos for any IT needs that you may have. Please feel free to contact me personally should you require any further information.
