Good morning

This is to confirm that Spiros from C2K is appointed to do our computer support and backup services at Rynfield Primary School.

Spiros has been involved with our school for the past 12 years.

He has assisted in setting up both our Computer Centers and office Blocks. He has given us incredible support and service. When one of our Center's was burgled he had us up and running in a very short time.

We would not deal with anyone else. He offers incredible service as well as telephonic support. Should we require any additional support he does not hesitate to assist us.

Regards

Carolyn Langton

Computer Teacher and IT administrator for the school
